#### ► About Us:

- Pura Vida Miami stands as the premier wellness and lifestyle brand with locations in Florida and New York and has been transforming the way people eat since its establishment in 2012 by Founder Omer Horev in South Florida.
- Pura Vida Miami has become a beacon of health-conscious living, offering a diverse menu of nutritious and delectable dishes. Omer & Jen Horev, the husband-wife duo behind Pura Vida Miami, have meticulously curated a menu that harmonizes nutritious and indulgent offerings. Their guiding principle is simple: they only serve food they would proudly feed their children, using only the highest-quality clean ingredients.
- As we continue to expand, our brand remains committed to its founding principles of health and wellness. As part of our community culture, we actively engage in eco-friendly practices such as composting food waste and donating soil to local farms, exemplifying its commitment to a sustainable future. More than a culinary destination, we are a lifestyle brand that encapsulates the essence of a healthier and happier community.
